

TUBULAR GAUGE GLASS

Specification:

Tubular Gauge Glass - Redline

UVI/COP Borosilicate tubular gauge glass has a red line between two white lines which, in the presence of a colorless liquid, magnifies the red line. The bold redline makes it easier to observe the liquid level.

Application: Tanks, Reservoirs & Low Pressure Boilers.

Maximum Recommended Working Pressure, psig			
Size	Length	Temperature	Steam Boiler Service
		Up to 150 °F	Up to 425°F
5/8" (+0,-1/32)	12"	335	280
	24"	265	255
	36"	205	—
Wall Thick. 3/32" (+/-1/64)	48"	165	—
	60"	125	—
	72"	90	—

— Maximum recommended length in service is 24"

NOTE: Never Exceed liquid level gauge manufacturer or glass manufacturer's pressure or temperature rating, whichever is less.
